## Customer Reviews

Wonderfully romantic story, full of a family that loves one another and will fight if necessary. Really enjoyed this story of sisters who found their loves through the mail order brides advertisements. With help from above.

This was interesting reading experience about people who have been hurt from an accident finding real love after suffering loss of family members and loss of the use of her hand. A woman in the town where they lived was jealous of the girl and was trying to prevent her from getting together with a man she wanted for herself and assaulted the young lady. A must read for those who enjoy historical western romance kindle books from at a special price and from a special author who keeps me entertained throughout the entire book before putting it down.

This is the last book in the series. The main characters in these books are four sisters. Each one has a disability due to the accident which killed their parents. These books show how each sister overcomes her physical problems and finds the love of life.

Nana was not the youngest sister about the blast sister to marry. This put pressure on her She had many opportunities but she was only interested in one young man and he was only interested in herThe shot is about them getting together and the problems they had.

I have enjoyed reading this series of characters not letting they're physical difficulties define or limit their own HEA's!Thanks for the time in New Hope, a place I recommend to my fellow readers.

Nana Herod loved Tyler Lawrence who owned a horse farm and was the cousin of Kit and Greg McFarlan her brother in laws. Her triplet sisters Hattie, Lilly and Maye all have found love in their marriages and she wanted the same. You will enjoy this read and want to punch Brenda Waller yourself when you read this story. She has set her cap for Tyler and has to be physically showed off the ranch when she shows up by Craid Yearbury who is married to Maye.
