The Young Protectors: Engaging The Enemy

Synopsis

Evil can be seductive...Kyle--a closeted, teen superhero who can control fire--has finally summoned up the courage to enter a local gay bar. It's his very first step towards accepting himself.

Unfortunately for him, his very next step out of the bar places him face-to-face with The Annihilator, "the most dangerous supervillain in the world." And the price that The Annihilator demands to keep Kyle's secret will lead Kyle down a path fraught with danger, adventure and unexpected romance.

It's a path that will force Kyle to question what it really means to be a hero and will ultimately thrust him and his young teammates into an epic conflict against vastly superior foes.

The Young Protectors: Engaging the Enemy is a multi-chapter superhero comic with explosive action, sly comedy, tender romance and powerful drama that both women and men will enjoy. Customer Reviews

Just a note to say this is a personal and UNPAID review. To be honest, I've been a long-time rabid

fan of THE YOUNG PROTECTORS online (and indeed of Alex Woolfson's other works). Let's be honest, the man's work ethic, pride in the art, great treatment of his fans and imagination, is the best of the best. I read a LOT and so I know when I find something special... and it is rare. This is a writer and director (or his art) who writes the entire story... beginning, middle and end before he starts with the visual art. None of this cliff-hangery Book#1 business... where you feel the manipulation to take a solid trilogy and turn it into a lost and rambly seventeen book series for profit. The bottom line is that he and his artists have NEVER disappointed me. In fact I am one of many readers checking the web twice a week to see TYP's pages update. It's always a lift and gift in my week. Other's will give you plot and story, but I can say this is, without a doubt, a story about young people of every personality type, culture, color, gender and preference, working together to save the world in the VERY freshest super heroic fashion. They're young, but never clichéd and never stereotypical. Rarely can readers predict the twists and turns -- and that is a wonderful and unusual thrill for this voracious reader. The villains are complex, amoral, dedicated to a purpose and deliciously sexy in an entirely appropriate yet fresh way. The hard copy of this first volume of the graphic novel is stunningly produced. Yes your home library WANTS it (so are the twice weekly web-pages and so is the PDF). The artists Alex uses are the very best in the comic and graphic novel business. YES, he pays for ultra-talented artists who's work has gotten better on every page for years now.
