# Trolls, Elves And Fairies (Dover Coloring Books)

## Synopsis

A wonderland of wee folk, this imaginative coloring book is populated by gremlins, pixies, giants, and other fantasy characters. In addition to mermaids, leprechauns, and other familiar creatures, these 29 images encompass a variety of lesser-known spirits:â € Befana, a good house-fairy from Italy, who brings toys and sweets on Twelfth Nightâ € Sandman, an English nursery spirit who lulls the children to sleep by sprinkling magical dust in their eyesâ € Puddlefoot, the Scottish household brownie who both tidies up unfinished work and makes a mess of completed choresâ € The Cloud People, spirits believed by Pueblo Indians to bring water to crops â € Alberich, the dwarf king, who possesses a magic ring, a cloak of invisibility, and a sword with special powersâ € Mab, Empress of Fairies, who rides a magical coach drawn by three butterfliesColorists of all ages are certain to fall under the spell of these beguiling images.

## Customer Reviews

I have to say, of all the coloring books I purchased for a 2-3 year old this was the one most loved by the adults. The child was happy with all of them, Disney, animals, butterflies, and this in an equal manner... but the grown ups thought this was wonderful. If you have a child who likes fantasy themes, or a teenager who happens to enjoy coloring, or even if you just like coloring books this one

is definitely a must.

I have given this coloring book to my girls two years in a row. This is an excellent alternative to Disney characters and other more commonly found coloring pages. The creatures in this book are beautiful and contain enough detail to challenge and inspire creativity in an older child, while the quality of the paper can stand the abuse of a toddler. Highly recommend.

I love this coloring book, it has a small paragraph for each picture telling about the faeries. I use acrylic paints and it's great

A few cute images in this book. However, the images are printed on both sides. See pictures for examples of what you'll find in the book. If you prefer to use colored pencils, this might be for you. As a marker lover, I am disappointed that I cannot use them in this book. Some of the images are kind of weird looking, too.

I never would've guessed my friend and neighbor, who drives a bulldozer for a living, would be the type to sit down with a coloring book but his colorings are beautiful and not juvenile at all. And he says, which also never occurred to me, that coloring is very relaxing. I never saw it that way as a kid but looking back, I guess coloring was actually relaxing. I'm very impressed with his, what I'm gonna call, artwork. He's somewhat picky about what he wants to color. The more detail in a pic to color, the better. And he's been very satisfied with the books I picked out for his birthday. He loves that the art of each of the pics to color is so detailed. He has bragged about my choices and so has anyone else who he's bragged to that I picked them out. I've never seen such beauty in a coloring book myself. I bought four of them and they all deserve the same praise so I guess I'll just copy and paste this review on each of the products.

I love this book it can be hard sometimes to find adult coloring books that are worth coloring but I love this one.

This is a beautiful coloring book with fantastic pictures to color with the right amount of detail for my advanced coloring skills, and the right kind of pictures to make me feel like a kid again. I also love the descriptions that come with each picture.

These are beautiful coloring books because they are so different than the ones that are out there. Beautiful intricate pictures that not only children will love but adults as well.
